Hi Kelly,

We have not as of yet completed the Community Involvement Plan document. We are waiting to stand up a Community Advisory Group, in which that body will have input into the document.

As to your other questions, yes there will be opportunities for the public to comment on the documents you mentioned. We are currently completing the first round of site sampling, and we are still some time out from the RI/FS document.

Thanks,

-Ed-

Subject: Lane Plating Superfund

Hi Ed – I wondered if there was a Community Involvement Plan for the Lane Plating site. If so, could I get a copy of that plan?

If not, is the agency working on a CIP for the site? Do you know what the opportunities for public comment will be during the process? Will there be an opportunity to comment on the Remedial Investigation and/or the Feasibility Study (before the ROD)?

Thanks very much for your help.
